

Feasibility of Electrolyzer Based Home Refueling System for Advanced Plug-in Hydrogen Vehicle Applications

Final Report, April 2008

ElectroChem's Home Hydrogen Refueler System – HHR™

Woburn, Massachusetts

The Market - HHR System

“We are working on the technology where we can charge hydrogen into fuel-cell vehicles at homes. So probably in the next 10 years we will get some level of infrastructure in place.”

Takeo Fukui, Chief Executive Officer, Honda Motor Company

Honda CEO Vies for Green Mantle, John Murray, June 16, 2008
