5 Fuel Cell Test Stations in One

Reaching a milestone is the goal for most companies…

*The industry leader creates milestones…*

ElectroChem, Inc. proudly introduces the **PowerStation™ Ultima**

- Controls up to FIVE single fuel cells or stacks independently and simultaneously
  - Simultaneous long duration, characterization and statistical testing
  - Independent, fully automatic control of operations and test conditions
  - 5 Fuel and 5 Oxygen Mass flow controllers and 10 humidifiers
  - Independent current measurements for all cells at common potential
  - Programmable software control
  - Thermal control of all cells
